# 1. WHAT COULD A LODGE DO FOR YOU?

There are so many uses for a garden lodge. Think about how a space like this could enhance your life

If you dream it, you can achieve it

## 2. IDENTIFY AN AREA IN YOUR GARDEN & MEASURE UP

Think about where your new Garden Lodges could be positioned in your garden.

Measure the area & then identify one of our sizes that could fit your space (on our product page you can select from 25 sizes)

### 3. GET YOURSELF A GOOD BASE READY FOR YOUR LODGE

Think about what base you need to have ready to be able to house a garden lodge.

A simple concrete base is very common, but it could also be paved or a strong timber base for example.  
(if you need advice we are more than happy to chat & help you work this out)

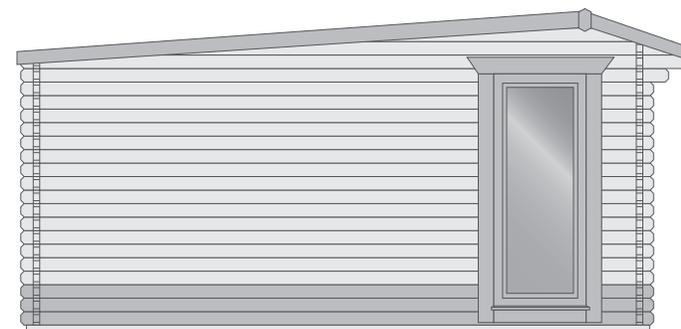

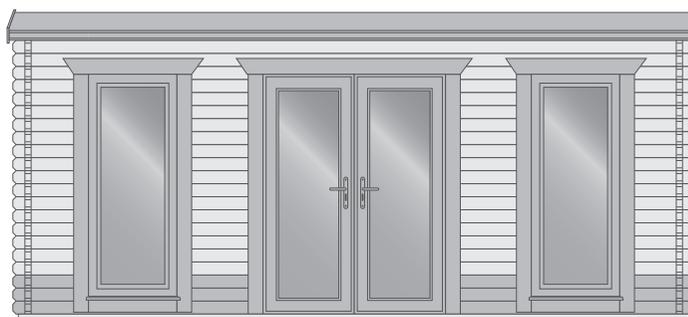

# 4. IDENTIFY THE STYLE OF LODGE YOU PREFER

We have two designs, Oakmere & Ashbourne. These are located on our 'STORE' page on our website

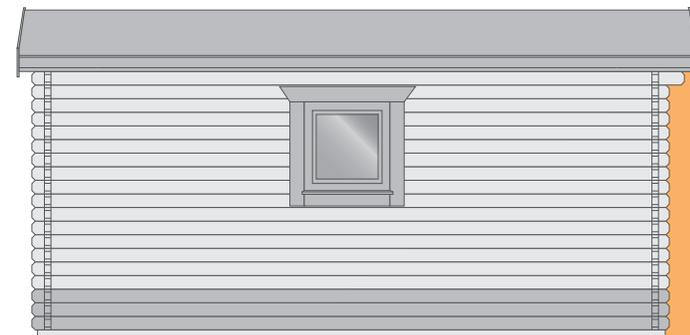

Both available in four different colours

## OAKMERE

## ASHBOURNE
